## Why choose rigid core?

Our Rigid Core floors combine stunning design, everyday durability, and quick-fit installation. With no need for underlay or adhesive, they click into place with ease, making them the smart choice for confident DIYers and professionals alike.

RIGID CORE

### Choose rigid core when...

- ☒ You want to install over an existing floor such as ceramic tiles, floorboard, or uneven subfloor.
- ☒ You want superior acoustics, such as in loft conversions or upstairs rooms.
- ☒ You want a quick installation.
- ☒ You have a damp subfloor, sometimes found in new builds or extensions.

5G® or 2G™

## Rigid core construction

Discover the power behind every layer of our Rigid Core floors (page 5 to 17). Each layer plays a vital role in delivering the style, strength, and performance of Karndean.

### 1. K-Guard+® Surface Protection

Our K-Guard+® surface protection system uses PU technology to provide a hygienic and durable finish.

### 2. Clear PVC Embossed Wear Layer

Provides superior protection from everyday wear and tear.

### 3. High Definition Photographic Layer

Showcasing the unique design of each Karndean product; handcrafted for one of a kind beautiful floors.

### 4. Stability Layer

This layer assists with dimensional stability and aids indentation resistance and recovery.

### 5. K-Core®

Our proprietary K-Core® technology ensures a stronger, more stable core for installation over most existing hard floors without the worry of exposing subfloor imperfections, and it's 100% waterproof.

### 6. 2G™ & 5G® Locking Mechanisms

Using proven click-lock technology, installers can quickly and easily lock planks together.

### 7. Acoustic Backing

Our pre-attached acoustic foam backing makes rigid core products quieter to walk on than laminate or engineered hard floors, and reduces sound transfer to rooms below.

## To guard and protect

High heels. New furniture. Family pets. Our floors go through a lot. But thanks to our K-Guard+® surface protection, Karndean floors don't show it. This commercial-grade durability works as a barrier against scuffs, stains, and scratches.

■ Warm Brushed Oak **SM-VGW122T-RKP**

### Hygienic

Keeps dust, dirt and allergens out - perfect for pets and kids

### Low maintenance

Easy to clean with a sweep and mop, doesn't require sanding, varnishing or staining.

### 100% waterproof

All Karndean floors are 100% waterproof, and won't swell, crack, or warp when wet.

## K-Guard+®

Our K-Guard+® surface protection system uses polyurethane technology to provide a hygienic and durable finish and has a history of premium performance.

#### Comfortable underfoot

Our floors are softer and warmer than natural wood or stone flooring, offering children a safe and comfortable space to play and parents an easy-to-clean surface.

#### Texture

*brought to life*

From smooth finishes, to tactile textures, to registered embosses that take in each individual knot and grain, every Karndean product comes with a beautiful emboss that enhances the final design.

■ Grey Brushed Oak **SM-VGW120T-RKP**

## Wear Layer

Each design has a realistic surface texture and provides superior protection from everyday wear and tear, ideal for busy environments.

### Realistic wood and stone designs

Inspired by nature, our products are designed in-house and realistically replicate the look and feel of real wood and stone materials.

## Inspired *by nature*

Our designers spend years perfecting our products, drawing inspiration from the intricacies of nature for our signature realistic wood and stone finishes. And with practical benefits designed to suit every lifestyle for years to come, Karndean flooring is even better than the real thing.

## Photographic Layer

Showcasing the unique design of each Karndean product; handcrafted for authentic, beautiful floors.

### Durable

Karndean Designflooring gives you the look and feel of natural products with the durability and resilience of luxury vinyl.

On  
*stable ground*

With the added stability layer, our rigid core products resist indentation and withstand everything life throws at them.

### Resists indentation

All Karndean floors stand up to the impact of day to day life.

■ Canadian Urban Oak RKP8116

## Stability Layer

This layer assists with dimensional stability and aids indentation resistance and recovery.

### Minimal disruption

Can be installed over most existing hard floors, minimising disruption.

### Quick and easy to install

Our rigid core designs are up to 30% quicker to install than other floor types.

### Click-locking mechanism

Quicker to install than other products, thanks to our innovative click-locking system, with no adhesive needed.

## Strength

## *at its core*

Due to the innovative K-Core® layer, our rigid core designs can be laid directly over most existing hard floors without the need for extensive subfloor preparation, therefore preserving them, perfect for renovating rented or listed buildings.

## K-Core®

Our proprietary K-Core® technology ensures a stronger, more stable core for installation over most existing hard floors without the worry of exposing subfloor imperfections, and it's 100% waterproof.

Silence

*is golden*

#### Reduces sound transfer

Reduces sound transfer to rooms below. The perfect option for upstairs rooms, flats, or apartments.

The sound from kids' bedrooms, play rooms and loft conversions is reduced by as much as 21dB thanks to our pre-attached acoustic backing. This unique sound-absorbing construction also helps reduce impact noise within a room. Compared to laminate or stone floors, our rigid core products are exceptionally quiet and the perfect choice for busy family homes.

■ Texas White Ash RKP8105

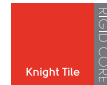

## Acoustic backing

Our pre-attached premium acoustic foam backing makes our products quieter to walk on than laminate or engineered hard floors, and reduces sound transfer to rooms below, without the need for underlay.

# Install with confidence

You've just purchased or are about to purchase a Karndean floor. To ensure a smooth and successful installation, please follow these important guidelines. They are essential not only for achieving the best possible result but also to make sure your floor is fully covered under our warranty.

### Where you can use it?

- Great for kitchens, bathrooms, laundry/utility rooms.
- Suitable for both homes and commercial spaces.
- Not suitable outdoors or in rooms with standing water.

### Before installation

#### ✓ Prepare the room

Complete all other work first (e.g. painting, plumbing). Maintain room temperature between 18–27°C (65–85°F). Keep flooring out of direct sunlight before, during and after installation.

#### ✓ Acclimate the flooring

Remove packaging and leave flat for 24 hrs.

#### ✓ Check materials

Inspect all planks or tiles for colour, quality, and defects before installation.

Any issues? Contact your retailer before fitting.

### Subfloor matters

For gluedown, your subfloor must be:

Firm • Level • Smooth • Dry • Clean

#### ✓ Check moisture:

Gluedown: Moisture must be below 75% RH (or per local standard).

Rigid Core: Moisture must be below 95% RH.

#### ✓ Remove or fix:

Carpets, soft flooring, and loose tiles.

Uneven areas or high points.

Adhesives containing asbestos—consult a professional.

#### ✓ Underfloor heating:

Allowed with all Karndean flooring, if surface stays below 27°C (85°F).

Follow the heating system manufacturer's guidance.

### Installing your floor

#### ✓ Shuffle the planks

To achieve a more natural look, shuffle planks or tiles from multiple boxes before starting.

#### ✓ Installing it yourself?

Scan below to follow our step-by-step instructions, or speak to your retailer for expert advice.

## Top tips for laying it right

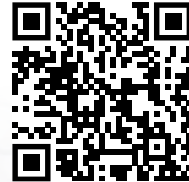

- ✓ Prep your subfloor – clean, dry, flat, and solid
- ✓ No carpet or soft floors underneath
- ✓ Dry areas only – no constant moisture
- ✓ Leave expansion gaps (Rigid Core)
- ✓ Use approved adhesive (Gluedown)
- ✓ Check every plank – right colour, batch, and no damage

#### Colour and Pattern Reproduction

We are careful to make sure our brochures are accurate and printed to very high standards, but photography and printing cannot always create a perfect representation of our products. For this reason we strongly recommend that you look at a sample of any product you are considering before placing your order.

All of our products are inspired by things we have seen in the natural world. Just as variation in colour and detail is part of the unique beauty of natural materials, it is also a feature of many of our designs. This means that with some of our products you will see natural variation when your floor is laid.
